

Love Learning. Aim High. Trust God

“Let your Light Shine.”- Matthew 5:16

Hertford St Andrew Primary School

Curriculum Statement

The intention of our curriculum is to:

- Nurture the full development of pupils in mind, body and spirit
- Empower children to achieve their best by providing a curriculum rich in knowledge and skills.
- Develop a love of learning through engagement and curiosity
- Reinforcing/ embedding key knowledge and vocabulary
- Support pupils in developing their own thinking and understanding of the wider world in which they live.
- Teach children how the Christian faith and the love of God can support them in every aspect of their lives.

The curriculum provides children with the necessary knowledge set out in the National Curriculum. It is designed to be progressive so that prior knowledge is the starting point for new learning and that this embeds over time. We give opportunities for learners of all abilities to undertake a wide range of learning experiences, both inside and outside of school, which deepens their understanding.

Our curriculum is also designed to support pupils in developing a range of important life skills through a focus on our core values of ***love, trust, forgiveness, courage and resilience***. We believe these values, alongside developing a growth mind-set, will give the children the attributes they need to become lifelong learners.
