

Maths

In Maths we will look at positional language and ordinal numbers. We will investigate patterns in numbers, count, compare, estimate and begin to add and subtract. We will learn to solve problems, practise doubling and halving and recognise and explain why a number is odd or even. We will begin to describe the properties of 2-D and 3-D shapes.

History

We will be looking at the local area and practise creating maps of Sele Farm and the school. We will look at geographical features of the local environment, such as parks and shops.

Geography

We will be looking at the local area and practise creating maps of Sele Farm and the school. We will look at geographical features of the local environment, such as parks and shops.

Art and Design

We will explore mark making and line; working and experimenting with different materials through observational and collaborative pieces.

Design Technology

We will explore slider mechanisms and the movement they output, to design, make and evaluate a moving storybook from a range of templates.

Year 1 – Hazel Autumn Term 2023 All About Me!

English - Writing

In Writing we will be learning to write labels, lists and captions and simple sentences. We will look carefully at orally composing and writing sentences. We will also be learning about nouns, verbs, adjectives and full stops.

In Phonics we will be revising all the sounds we have previously learnt. We will be learning to sound out and blend words for reading and segment and blend words for writing. We will be learning to read and write 'tricky words'.

We will practice handwriting regularly to secure correct letter formation.

Reading

We have daily reading sessions focusing on:

Decoding – decoding unfamiliar words

Prosody – using intonation and expression as we read to engage and audience

Comprehension – understanding what we have read

PSHE (Jigsaw)

We will think carefully about the importance of our classroom rules, how to follow them and what are our rights and responsibilities. We will recognise that we are all different and we will accept each other. We will think about what makes a good friend and how to feel safe in our class.

Science

In Science we will be learning about everyday materials. We will practice sorting them into categories and investigating which are the most suitable materials for different purposes. We will also investigate seasonal changes.

Computing

We will be learning to use Beebot robots. We will program the robots with simple algorithms to follow a route and to reach a destination. We will be learning to use programs on the iPads.

Music

We will investigate ways of using our voices expressively, develop skills of singing while performing actions, and create an expressive story. We will explore sounds found in our school environment and record sounds to stimulate our musical ideas.

RE

We will explore what Christians believe God is like and how we worship. We will investigate creation stories and think, talk and ask about living in an amazing world.

PE

PE will be taught on a Wednesday and Friday. This term we will develop ball skills and explore gymnastics.
